EXPERIENCE

Funcove LLC, Florida — *Full Stack Engineer*

MAY 2025 - PRESENT (Remote)

- Engineered AI agents and AI-powered applications for automation, app generation, workflow execution, and dynamic user experiences.
- Contributed to an AI App Builder platform that generates, manages, and deploys web and application experiences using AI-driven workflows.
- Optimized LLM usage and reduced AI operation costs through prompt refinement and caching, model selection, workflow tuning, and usage monitoring.

Peace Nepal Dot Com, Kupondole — *Frontend Developer*

OCT 2024 - FEB 2025 (On-Site)

- Developed reusable UI components and business logic for scalable web and mobile applications.
- Improved application reliability by writing unit and integration tests in a monorepo architecture.
- Collaborated with global teams using Azure Boards to support Agile development, task tracking, and feature delivery

Braimy, Baluwatar — *Full Stack Developer*

JUN 2024 - DEC 2024 (Hybrid)

- Developed and maintained Braimy, an AI-powered EdTech platform serving 10K+ students.
- Integrated AI-powered features to support personalized learning and improve student experience.
- Implemented hybrid search functionality, improving platform efficiency by 10–20%.

Ktmbees, New Baneshwor — *Full Stack Developer/Trainee*

AUG 2022 - MAY 2024 (On-Site)

- Built full-stack web applications including AI-powered MCQ generation, legal AI assistant, travel booking, e-commerce, and loan management systems.
- Developed responsive frontend interfaces, backend services, REST APIs, and third-party integrations.
- Gained hands-on experience building maintainable full-stack applications across multiple business domains.
